Description

The BLOCKchip Card™ INTRODUCING THE NEW CHIP ON THE BLOCK™ While many companies and individuals have tried to tame the crypto world, Yonga Tech's goal is far more practical: to become the most trusted everyday tool, by which crypto currencies convert into fiat currency (of any kind), for easy use in everyday point of purchase transactions. Just as PayPal made online transactions safe and secure in a weary world, Yonga Tech's purpose is to provide the world a completely confident, frictionless way, to easily transact on main street using crypto; while keeping the deposited crypto completely safe. **What Makes Us Different ONLY SECURE BLOCK CHAIN-BASED CARD** The volatile nature of cryptocurrency prices poses a challenge for merchants who may be exposed to exchange rate risks. Our strategy of immediate conversion to fiat or stablecoin settlements will mitigate this concern, or other ETF mechanisms **CURRENCY EXCHANGE WITH SET FEES THAT DON'T GO UP OR DOWN.** Useability and Trustability: safe SMARTVault™* verification system used in conjunction with the BLOCKChip™* Card allows anyone to use like a standard credit card (BLOCKChip™* Chip Off The New Block™* security logo, and smart phone are required in combination for POS use).
